## PRECISION CNC MACHINING

## COMPANY OVERVIEW

Top Precision, LLC has been leading the way in innovation and automation as a producer of high precision, close tolerance high speed CNC machined products since 2001. We specialize in low volume - high mix custom machined precision components for industry. Our areas of expertise range from fiber optics test and measurement equipment, photonics, semiconductor manufacturing, professional camera support, Biomedical research, Aerospace, Defense, oil and gas exploration, robotics, spray devices and aftermarket automotive components.

## MATERIALS INCLUDE

Aluminum, Stainless Steel, Copper, Plastics and more.

## SERVICES

- Precision CNC Milling – 3, 4 and 5 Axis – 21 Machining Centers specializing in close tolerance production machining of production parts
- Precision CNC Turning – 2 through 6 Axis – 8 Turning Centers with Automatic Bar Loaders, Parts catchers and accumulators, live tooling
- CMM – LK Metrology Altera S 8.7.6
- In house Laser Engraving (2 each) for Part / Serial / Heat numbers, precision marking, rotary engraving
- Vibro-finishing, bead blasting, and line grain machines
- Design for Manufacturing Consulting
- Assembly - Mechanical

## SOFTWARE – Latest Versions updated annually.

- SolidWorks – CAD
- GibbsCam – CAM
- JobBoss – MRP and Quoting System
- Smartsheet – Project Management
- CMM Manager – CMM 3D Software
